The intervention uses client-produced, client-interpreted drawings of their problem, their preferred outcome, and one small step that they would be willing to take to "move" from the problem to the preferred outcome. It is within this dialogue that therapeutic change can occur. Participants will be trained to implement this user-friendly intervention by engaging in it experientially.</p>	<p><b>Sat, Apr 27</b></p> <ul style="list-style-type: none"> <li>• 9 AM – 3:30 PM</li> <li>• 6 CE Hours</li> <li>• Loyola Graduate Center, Timonium</li> <li>• \$185 Professionals/ \$105 Students</li> <li>• For counselors, psychologists, and social workers</li> <li>• Price includes lunch</li> </ul>
